PROFESSIONAL SUMMARY

Laravel Backend Developer with 3+ years of experience building production-grade APIs, enterprise web applications, and third-party integrations (Amadeus, DHL, FedEx, payment gateways). Currently developing a banking audit system for Shangrila Bank, with hands-on experience in Docker containerization and GitLab CI/CD pipelines for automated deployment. Specialized in MySQL and PostgreSQL optimization, RESTful API development, and server deployment on DigitalOcean/Ubuntu. Frontend collaboration experience with Vue.js and Bootstrap.

EDUCATION

B.Sc. (Hons) in Information Technology **2026 – Present**
LBEF Campus (Affiliated with Asia Pacific University of Technology & Innovation) *Kathmandu, Nepal*

Diploma in Computer Science and Engineering - GPA: 3.5/4.0 **2019 – 2023**
Birgunj Institute of Technology *Birgunj, Nepal*

EXPERIENCE

Laravel (PHP) Developer **June 2026 – Present**
Trilokya Technology Pvt Ltd. *Kathmandu, Nepal*

- Developing and maintaining the Audit System for Shangrila Bank, a Laravel-based enterprise application for managing bank audit workflows and compliance records.
- Containerized the application using Docker to ensure consistent environments across development, staging, and production.
- Set up and maintained CI/CD pipelines on GitLab for automated build, testing, and deployment, reducing manual release effort.

Laravel (PHP) Developer **June 2024 – June 2026**
Nectar Digit Pvt Ltd. *Kathmandu, Nepal*

- Developed and maintained 10+ Laravel web applications serving thousands of users with optimized backend performance and scalable architecture.
- Designed and implemented RESTful APIs consumed by frontend applications (Vue.js), including debugging and performance optimization.
- Deployed and managed Laravel applications on DigitalOcean, Hostinger, and CyberPanel ensuring stable and reliable performance.
- Performed database optimization using indexing, Caching, and eager loading to improve application performance.

Laravel Developer (Remote) **November 2023 – May 2024**
Des Vu Technologies *Pokhara, Nepal (Remote)*

- Contributed to backend development of a travel platform of Sayatri using Laravel and MySQL.
- Worked under senior developers to implement API integrations and booking workflows.

Laravel Developer (Part-time) **June 2023 – September 2023**
Prosoft Nepal *Tinkune, Kathmandu*

- Contributed to multiple client projects focusing on backend development and database design.
- Implemented admin dashboards, RESTful APIs, and role-based user management features.

PROJECTS

Shangrila Bank Audit System | Laravel, MySQL, Docker, GitLab CI/CD **2026**

- Building an enterprise audit management system for Shangrila Bank to digitize and streamline internal audit workflows and compliance reporting.
- Live production site: www.auditsystemshangrilabank.com (hosted on the bank's private network, accessible only within their internal infrastructure); staging/testing deployed at audit.trilokyasoft.com.
- Containerized the app with Docker and built a GitLab CI/CD pipeline for automated testing and deployment across environments.

Order E-commerce Platform | Laravel, MySQL, Bootstrap, Vue.js **2024**

- Developed a full-featured e-commerce platform with Vue.js frontend and efficient order management for seamless shopping experiences.
- Integrated secure payment gateways and optimized inventory workflows using efficient database queries to ensure reliable product availability.

Sewa Travel Booking Platform | Laravel, MySQL, Bootstrap, Vue.js **2025**

- Developed a travel booking platform with secure workflows for domestic and international flights.
- Integrated Amadeus and Plazmatech SOAP APIs for flight availability and booking management.

Elite Express Cargo Platform | Laravel, MySQL, Bootstrap **2025**

- Developed a cargo and courier management platform with efficient service workflows and customer tracking features using Laravel.
- Integrated DHL, FedEx, and other courier APIs for live shipment status updates.

Kantipur Theatre Ticketing Platform | Laravel, MySQL, Bootstrap **2024**

- Built an online theatre ticket booking platform with show management for performances and movie screenings.
- Integrated eSewa and Khalti payment gateways with automated booking confirmations.

Lekhabidhi HR Management System | Laravel, MySQL, Bootstrap, Vue.js **2024**

- Developed a scalable HR management system handling attendance, payroll, employee records, and organizational workflows.
- Implemented role-based access control, leave management, and efficient HR operations tracking.

TECHNICAL SKILLS

Backend: PHP, Laravel, RESTful APIs, SOAP API integration
Database: MySQL, PostgreSQL
Deployment & DevOps: Docker, GitLab CI/CD, Ubuntu Linux, DigitalOcean, Nginx, Apache, cPanel, CloudPanel, SSH
API & Integrations: Amadeus, DHL, FedEx, Plazma tech SOAP, eSewa, Khalti, ConnectIPS, HBL, Fonepay, Stripe, PayPal
Frontend Collaboration: Vue.js, Bootstrap, jQuery, AJAX
Developer Tools: Git, GitHub, GitLab, Postman, Composer, VS Code, TablePlus, FileZilla, XAMPP
Other Skills: SEO Optimization, Google Search Console, FFmpeg, Zoho Mail, Slack

CERTIFICATIONS

- Laravel Advanced: Building Real-World Applications – Udemy
- Built a Food Ordering E-commerce Platform using Laravel – Udemy (Instructor: Web Coding)
- Vue.js Complete Guide for Beginners to Advanced – Udemy (Instructor: Maximilian)

EXTRACURRICULAR

- Volunteered in local coding workshops, promoting learning and teamwork among students.
- Participated in tech competitions and collaborated with peers to solve programming challenges.
